Leanne Jasset yes

Old Business:

Cathy began by saying that things have quieted down camps and pools have all been checked. We have one camp that is out of line and that is the Pro Ambition Hockey Camp at the Boch Ice Center on East Street. I visited the center and told them they could not have a health permit until they give us a copy of the occupancy permit and the fire inspection report.

Mr. Paul Cokinos, the owner, called me and said to speak to Kenney Cimenio, The Building Inspector because he knows all about it. I spoke to Kenny and he said that he was not going to issue an occupancy permit. Apparently Mr. Paul Cokinos has been dragging his feet for quite some time and he has been issued temporary permits in the past. This camp is to be held the first two weeks in August. I will not be issuing a health permit.

New Business:

We have had a few complaints about odor at the Incinerator we go over and rate the odor level. The last visit I had prior to going on vacation I went and checked it and looked at the leeching tanks which were overflowing and they had been pumped the day before. None of the incinerator is on town sewer. Recycling Solutions will be connecting to the town sewer system and are in the process of working with engineering, inserting cameras in the lines and getting the plans submitted. The stench is probably coming from opening these tanks to insert the cameras. They are working on a solution we are telling callers that they are working on a solution and we are working with them to resolve this issue. It is a transfer station there will be always be an odor.

With no further business to discuss Leanne motioned to adjourn Mary seconded the motion. All in favor aye opposed none. So Voted:

Leanne Jasset	yes
Mary Ellard	yes
Dr. O'Leary	yes

The meeting adjourned at 6:15 p.m.

Dr Michael P. O'Leary, Chairman
